

I give thanks to my God for every remembrance of you... because of your partnership in the gospel from the first day until now.

God reached out to Jeff and Christy Collie. Here's the story in their own words:

We received a message that a new church, StoneWater Church, was coming to Granbury. The message came on a simple bottle of water. The water quenched our thirst and the message held our attention, so we decided to follow the message on the bottle. After visiting the "Sneak Peak" service in which we heard the vision of the church, we immediately chose to join the launch team. As we began to serve in the new beginnings of the church, God began to speak to us. God had found his way into our daily lives. We wanted to make this commitment public. Together, as husband and wife, we were baptized in the lake. We were excited to make this commitment and to be a part of the first baptisms of this new church.

Our faith continues to grow through the studies and fellowship at StoneWater. God has led us to minister to others by opening our home to the weekly Bible studies that we call Life Groups. Though it has been less than a year since we received God's message in the bottle, our marriage and family have grown spiritually beyond belief. God has blessed our lives with life-long friends and a growing church family. We are ecstatic that God has given the gift of StoneWater Church.
